

8 Points to Atheaism

WE KNOW Athea is the Queen of Heaven, the Vast Heart, and the All-Goddess of the Zero-Gate, and that she was known as Inanna, Ishtar, Astarte, Aphrodite, and Venus in previous eras.

WE KNOW to expand Athea's spheres of influence within society and a private residence. These spheres include love, justice, and empowerment for all.

WE KNOW everyone must receive a place to live and a place to die to accelerate the expansion of Athea's spheres of influence.

WE KNOW the energy of Athea is the primordial force of chaos and change that fuels the transformative and cyclical process of birth, growth, decay, and death of all systems within the known universe.

WE KNOW and celebrate the return of the pilipili, kurğara and sağ-ursağ (trans, nonbinary, and intersex persons) into society as recorded by the princess, priestess, and poetess Enheduanna (2285–2250 BCE) of Ur.

WE KNOW the ruin caused by fundamentalist chosen people, prosperity theology, blood sacrifice, bloodline fanaticism, supremacism, & slavery, and we protest them wholly.

WE KNOW to use projective tools responsibly such as holy books, the internet, scrying surfaces, divination stones, pendulums, and tarot cards.

WE KNOW to exercise our will without harm, injury, or malfeasance to others or ourselves. We also respect the freedom of religion and the freedom from religion.
